GPD LEARNING EVENT 2017

8th-9th March ISTANBUL

As in 2015 and 2016, the 3rd edition of GPD Istanbul Glass Industry Seminars will also be organized concurrently with Eurasia Window, Glass and Door shows. Unlike the previous events, this year's seminar will be held in two different sessions on the first and second days of the exhibition. The first day's session is dedicated to architects and whereas the second session concerns glass processing industrialists. Both sessions will have simultaneous translation to English and Turkish languages.

Attracting more than 50 thousand professionals from over 100 countries, Eurasia Window, Glass, Door show is the region's biggest platform for the industry. Organized concurrently with the exhibition, GPD Istanbul offers valuable information regarding new trends, technologies and applications and an overview of the glass industry and its actors in general.
