CERTIFICATION AND ASSESSMENT OF GREEN BUILDING GLASS PRODUCT

ABSTRACT

Relevant departments of China are actively promoting the work of product standard, certification and mark of green building products and guide building materials enterprises' participating in green product, certification principally based on GB/T 35604-2017 **Green product assessment-Building glass**. Building glass is the third largest building product in addition to steel and cement. It is widely used in building doors and windows, curtain wall and home decorations. This article introduces principle requirements of green building glass product certification and requirements and methods of assessment on energy attributes, resource and environmental attributes and quality attributes of building glass (tempered glass, laminated glass and insulating glass).

建筑玻璃绿色产品认证、评价介绍

摘要：国家有关部门正在积极推动绿色建材产品标准、认证、标识工作，引导建材企业参与绿色产品认证，主要认证依据为GB/T 35604-2017《绿色产品评价 建筑玻璃》。建筑玻璃是除钢材、水泥外第三大建材产品，广泛应用于建筑门窗、幕墙、家居装饰。本文介绍了建筑玻璃绿色产品认证的基本要求，以及建筑玻璃（钢化玻璃、夹层玻璃、中空玻璃）能源属性、资源属性、环境属性、品质属性指标的评价要求、评价方法。
